Tileyard Road over Flint Creek
Bridge Replacement Project
Town of Gorham, NY
P.I.N. 4ON0.06

February 1, 2021

FOR IMMEDIATE RELEASE

Public Information and Comment Period for Bridge Replacement Project

This notice is in regard to a bridge replacement project involving the bridge carrying Tileyard Road over Flint Creek in the Town of Gorham, NY. Documents illustrating the proposed project will be available on the World Wide Web beginning Monday, February 1, 2021 at the following address:

<https://www.co.ontario.ny.us/1110/ProjectConstruction-Updates> .

Interested commuters, residents, and the general public are encouraged to review the written and graphical documentation, including a video presentation, available on the project's webpage referenced above. Comments or questions may be directed to the County's project manager at the address below or by submitting a written comment sheet, which will also be available on the project's webpage. The County will accept comments via phone, e-mail, or those postmarked by Friday, February 15, 2021.

The existing bridge is in poor structural condition, lacks shoulders and cannot adequately convey stream flows during a 50-yr storm. The project will replace the bridge with a longer 90-ft span steel multi-girder bridge supported on integral abutments. The new bridge will feature 11-ft lanes and 5-ft shoulders, providing improved safety for motorists, pedestrians and bicyclists. Along with the increased span length, the bridge will also be raised approximately 2.75 ft to provide 2 ft of freeboard under the structure during a 50-yr storm.

Right-of-Way acquisitions will be required in the form of permanent easements. The additional ROW is required to allow construction access, accommodate the roadway embankments and relocated stone-lined ditches.

A full closure of the bridge will be required. The posted detour will utilize Goose Street, Charlton Road, Old Mill Road and Mott Road and is approximately 3.2 miles long.

We encourage you to review the materials posted online and welcome your comments. If you require additional information on this project please contact the County's project manager at the address below:
